

Whether you require a simple CCTV system or comprehensive integrated system, MACLAN is your resource for end-to-end security system solutions. We provide turnkey project installation and service through a single source, eliminating the added hassle of dealing with multiple vendors. MACLAN's expertise includes access control, video surveillance, integrated physical/logical security and intrusion alarms. MACLAN has strong experience with 100 percent IP-based systems that lower cost and improve network flexibility and scalability.
